### Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Swiss law and Swiss Auditing Standards. Those standards require that we plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

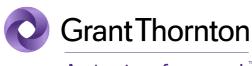

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers the internal control system relevant to the entity's preparation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control system. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of accounting estimates made, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### Notes to the financial statements

# **GLENMARK SIGNIFICANT ACCOUNTING POLICIES**

### • Basis of preparation

These financial statements have been prepared in accordance with the provisions of commercial accounting as set out in the Swiss Code of Obligations (Art. 957 to 963b CO, effective since 1 January 2013). The consolidation is performed at Group level.

### • Foreign currency transactions

Transactions in foreign currencies are converted into CHF at the prevailing exchange rate on the transaction date. Balance sheet items in foreign currency are converted using the year-end exchange rate. Exchange differences, except for unrealized gains which are deferred, are included in the determination of net income

### • Impairment of assets

The Company assesses at each Balance Sheet date whether there is any indication that assets may be impaired. If any such indication exists, the Company estimates the recoverable amount of the cash generating unit to which the assets belong. If the recoverable amount of the cash generating unit to which the assets belong is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The recoverable amount is higher of the value in use and realizable value.

The reduction is treated as an impairment loss and is recognized in the Statement of Profit and Loss.

If, at the Balance Sheet date, there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount.
