

Press Release – For Immediate Release

Glenmark Pharmaceuticals to Present New Analysis of Pooled Data on Ryaltris™, an Investigational Product for the Treatment of Seasonal Allergic Rhinitis, at the AAAAI 2019 Annual Meeting

Ryaltris (olopatadine hydrochloride [665 mcg] and mometasone furoate [25 mcg]), also known as GSP 301 Nasal Spray, is the company's leading respiratory pipeline asset and currently under review with the U.S. Food and Drug Administration (FDA) as a treatment of seasonal allergic rhinitis in patients 12 years and older

Mumbai, India, February 20, 2019: Glenmark Pharmaceuticals, a global innovative pharmaceutical company, today announced upcoming presentations of pooled data from clinical studies of Ryaltris™ (olopatadine hydrochloride and mometasone furoate monohydrate nasal spray), also known as GSP 301 Nasal Spray, an investigational fixed-dose combination nasal spray for the treatment of seasonal allergic rhinitis (SAR) in patients 12 years of age and older, at the 2019 Annual Meeting of the American Academy of Allergy, Asthma and Immunology (AAAAI 2019) in San Francisco, California. "Ryaltris" has been conditionally accepted by the FDA as the brand name.

"We continue to evaluate the clinical profile of Ryaltris based on findings from our completed efficacy and safety studies. We are pleased for the opportunity to present these data at AAAAI 2019, these pooled analyses on key outcomes from thousands of patients provide additional insights into the potential effectiveness of Ryaltris," said Mahboob Rahman, Chief Medical Officer at Glenmark Pharmaceuticals

Glenmark Pharmaceuticals has studied Ryaltris in seven clinical trials involving more than 4,000 patients. Results from clinical trials of Ryaltris have been previously presented at key medical meetings.

If approved by the FDA, Ryaltris will be commercialized by Glenmark Therapeutics Inc., USA, a wholly-owned subsidiary of Glenmark Holding, SA, that is dedicated to launching and commercializing a portfolio of branded products in the therapeutic areas of respiratory and dermatology in the United States.
